Why Beach Bytes?

Coding sharpens the skills that pay off in every subject: logical thinking, STEM confidence, clear communication and the persistence to debug a problem until it works.

All tech supplied

We provide the computers and software. Kids just bring their curiosity and their imagination.

The right fit

A free trial class lets us assess your child and get them started at the right level.

Explore & advance

Students can go beyond the curriculum, and expert coders advance rapidly.

Dozens of courses

A clear path from the first drag-and-drop blocks to real-world languages and platforms.

Tracked individually

Our Learning Management System tracks each student's progress from class to class.

Flexible scheduling

Multiple membership levels. Come when it suits you; reschedule easily.
